50 Contestants In Boxing Tourney

110 BOUTS STAGED AT SAT-URDAY AFFAIR

Anyone who enjoyed clever boxing would have had a good time at the CCC boxing tournament held at the School gymnasium last Saturday afternoon and evening. 110 bouts were staged amidst a crowd made up largely of CCC officers and enrollees and local citizens.

acting as referee. Mr. Buchen of Camp AuSable was the announc er and as each contestant was presented there was loud cheer-ing by the enrollees of the camp that he represented. There was strong pulling and much coaching from the side lines by the audience in favor of their choice for victory. And the boxers too entered the roped arena deter-mined to give their best, for championships loomed anead for the victorious.

It was a pleasure to witness the work of Referee McMullen. At once he established confidence with the fighters. In his kindly way he gave his instructions to the compatants and saw to it that each one had fair play. In a few instances when he could see that the match was uneven and if appeared that a knock-out was obvious he rould stop. and it appeared that a knock-out was obvious, he would stop the metch and thus save the boy from unnecessary punishment. And the match would be given to

the better fighter.

It stands to reason that in 110 bouts that there would be a num-

rivalry was extremely keen. It was a very orderly affair from start to finish.

The camps represented were Camp Higgins, Camp AuSable, Camp Hartwick Pines, Camp Pioneer, Camp Houghton Lake, and Camp Kalkaska, which together form the camps of the fourth district of Michigan.

The winners of the final matches will go to Camp Custer for more intensive training in preparation to meet the champs from the other Michigan districts. They are as follow:

Flyweight—A. Brenkle, camp 681. Bantam weight—Maliczeski,

camp 672.
Featherweight—Dzedzic, camp reatherweight—Dzedzic, camp 684. Lichtweight—Podiak, 672. Welterweight—Bayon, 672. Middleweight—Stanfield, 684. Light Heavyweight—Welsch,

Heavyweight-Ellis, 2685. The boys of Camp Higgins (672) are feeling pretty chesty over the fact that four out of the eight championships won by boys from that camp.

bouts that there would be a number of knick-outs, and such was the case in a few instances. Of course there were is lot of bloody noses and face and body bruises, for some of these young ristic aspirants could handle their dukes pretty well and behind their thrusts were some pretty stiff punches.

In order to go to the finals a number of the boys had to fight three and four bouts of three rounds each, and by the time the last gong sounded there was a pretty tred group of fighters among these CCC lads.

And there is a lot of satisfaction in saying that thruout the entire tournament that there was no rowdyism and no brawls in spite of the fact that the camp rivalry was extremely keen. It was a very, orderly affair from start to fireth.

To Raise Funds For Winter Sports

Sports park, the people of Michigan have learned that they must come to Grayling for this pleasing at its best. It brings, many people here who, without this recreation, would not stop, wither sports this year. Where the money was to come from was a question that was finally determined by asking the business men of Grayling to come to their rescue.

Winter sports is an activity that is of interest to everyone. It winter sports without pay. We are fortunate to have such enterprise in this enterprise. But even they without pay. We are fortunate to have such enterprises and least some profit. The committee, accordingly, have only affords pleasure to our own people but to thousands of outsiders. With our great winter sports without pay without pay we are fortunate to have such enterprise. But even they imposed assessments as follows:

VICTOR HERBERT PROGRAM PRESENTED TO WOMAN'S

I sure have meant to get this done for some time. I hope you will all excuse the delay and write to us. I know that a lot of you folks that we promised to write to have been pretty disappointed but we have been so busy since our arrival here that it has been very hard to write.

We sure had a wonderful trip and saw more country than I ever thought there was in this little old world.

Leona didn't enjoy this trip up from Seattle by water. We took the outside passage and had three days of quite rough weather. But she was feeling fine again as

in presenting the program. The orchestra was made up of Mr. E. G. Clark, Mrs. Geo. Olson, Mrs. Emil Niederer, Don Young, Arthur Clark, Sam Gust. Other musicians were Mrs. June Underwood, Howard Schmidt, and Edward Brigham.

Probably no name in the wide field of art is more familiar than that of Victor Herbert. For years there has been no national com-poser in this country whose fame has approached anywhere near Victor Herberts'. It so happened we have had the opportunity this summer to get around and see quite a bit of the surrounding to find country and visit some of death of this beloved composer. The gold mines near here. There were 15,000 copies of the Manual printed, to be sold to the public at cost, of \$1.50 a volume. Several thousand of the volume. Several thousand of the books are distributed to public officials without cost; the total cost to the state is about \$23,000 for the printing, binding and engraving. The entire consignment, weighing approximately 1½ pounds per volume, would tip the beams at 11½ tons. Most of them are shipped out of Lansing and at state expense, too.

With each book being 1½ inchest hick, they would form a pile of 2,187 feet, or almost half a mile, if the 15,000 books were stacked one on top of another

True youth in its early life must be served. Perhaps it is in uns younger youth that we are anis younger youth that we are more personally interested. But all youth must be cared for, saught to aim for a clearer prospective. Is he to use the shough method of alming at his goal or should he use the care and should he use the care and should the ride hunter must use in alming at his kill?

Youth today may come from many types of environment, but no matter their origin they all have one desire. The desire of peaceful homes, not homes wrecked by worldly upheavals.

Miss Jean Dykes, who has oc-cupied the position of teacher of languages in our school for the

wrecked by worldin upheavals.
Growing youth may be compared to our own Ausable. The river starts from its source, without care and winds its way quietly in the path that has been prepared for it. Then it goes to school and for a time it progresses rapidly. In the early high school days this stream of life hits some waters where hie seems to stand still or even go backwards. A period of stagnation is close by. Some of the stream finds an easier path and wanders aimlessity storg, ternaps reposing the main stream and going on to Myrtle McEvers of the second grade was absent last week on main stream and going on to school reading table for which he has our thanks.

For years we have been thinking of the next generation. Touny that next generation has arrived. It is here. It is youth in person and youth in action.

person and youth in action.
From the beginning of conscious thought through to conscious expression, youth wants many things of the older generation.
As children they desire security, parents and a home, a normality—to be as other children—not queer and different.

Past generations have en-deavored to make this a better world for youth. Their fore-fathers went into the world war to save the world for democracy—and what a mess they made of Their high sounding phrases became mere words economic security was lost and the world was left a miserable world for future sons and daughters to in-

herit.
Where is security? Where is manhood's dream? realization of manhood's dream? Instead of a modern Utopia we have youth in the bread line, on the picket line, on the highways. in the jungle camps of hitch-hikers or riding the rods across the country.

When the world disarmament

when the world disarmament congress opened in February of 1932, a Yale Senior James Frederick Green addressed the great body of delegates. Quietly he stood before them as the embodiment of the voice of their inarticulate youth. They expected to hear a flaming youth. They This is done. articulate youth. They expected to hear a flaming youth. They instead listened in wonder to such words as these:

"After contemplating the events preceding the catastrophe of 1914 we remain unconvinced as to the wisdom of our predecessors. We respect the noble war dead but we question the judgment of those responsible for their deaths.

their deaths.

Organized slaughter, we realize does not settle a dispute, it merely silences an argument. The other speakers have much at stake; we have even more for we are literally fighting for our lives. I stand before you as an attorney for the defense, pleading for a reprieve. It is my generation which will be called upon to surrender all that we consider reprieve. It is my generation which will be called upon to surrender all that we consider worth while in life to become targets for machine gun bullets and victims for the latest poisonous gas. It is the young men and women of my age who will be commanded to suicide. It is my generation which will be requested to destroy the best in human culture, perhaps civilization itself, for causes which future historians will discover to be erroneous if not utterly stupid or actually vicious. We have lost interest in being prepared for cannon fodder.

In a sense I am presenting an ultimatum, rather than a petition. For behind your deliberations stands staring down at us, the specter of Death, We deserve to live and to live at peace. We desire to construct a world society providing freedom, ejual opportunity and a sense of security. We desire to make possible for every human being full development of personality in terms of the highest human and spiritual values we know."

Uses for Mercury

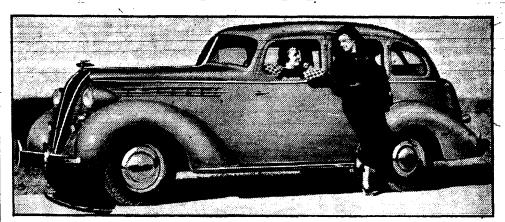

Mercury or quicksilver, so widely employed in thermometers, has a greater variety of uses than any other metal. It is utilized in a thousand different ways in the arts, chemistry and medicine. Mercuric salts, especially the chloride and lodide, writes Trevor Sanks, New York city, in Collier's Weekly, are the most powerful of all known antiseptics. Of the perchloride, one part in 2,000—the strength commonly suployed in surgery kills all known bacteria.

perhaps. It will pass." "I hope so. I almost wish she could stay siways. It will be hard to give her up when the time comes."

Mrs. Bonner was surprised to find, next morning, that Mary had closed and locked her door. She answered her knock, however, and appeared promptly for breakfast, apparently perfectly happy. Yet Mrs. Bonner was worried to notice that whenever Mary had an opportunity, she would slip away to her room, lock the door, and stay there until she was called.

They spent one day in town shopping, and on the next made all preparations for Christmas dinner. On Christmas eve they went to church, and heard the old familiar carols. And then Orphan Mary went to bed in high excitement, and Mr. and Mrs. Bonner piled the gifts around the tree.

Christmas morning brought a snowstorm and dark skies. Mrs. Bonner slept lightly, and at the first sound of Mary stirring she got up. A few minutes later she came back to her husband. "John, what did you do with my silk pieces?"

"Well, that settles it. There's one thing I won't have ground, and that's a thief. Get dressed, both of you John will drive you back."

"Now, mother—"
"Do you want a thief around? No telling what she might take next. Get your things, Mary, Hurry!"

Orphan Mary turned quickly and did as she was told. By the time John had the engine warmed up she climbed in silently beside him and they started off.

Mrs. Bonner peeked around a corner of the parlor curtain as they went. Then she turned and looked at the tree. The presents were in a heap at the foot, but the tingel was now a mockery. She sank down on a stool and idly counted them

"Oh," cried Mrs. Bonner, "that oper child! She couldn't stand not having a present to give in return. and so she made for me the one thing I said I wanted." She hugged the pillow close, and her tears spotted one of the best pieces. After a while she heard the car drive into the garage, and her husband's step on the parch. She ran to meet him.

"Look, John! Look what Mary made for me. And I called her a thief! Can't we get her back? She counted so much on this Christman and now I've spoiled it all !" "I wouldn't say that quite, Moth-

SHERIFF BENNETT GETS HIS MAN

Sheriff Frank Bennett, like the Canadian Mounted Police, "gets his man." He returned to Grayling Wednesday night with Berry Lauder, wanted here on a charge of assault to kill.

Some time last summer Lauder, who is 59 years old, made an assault on Rufus Edmunds, and was arrested accordingly. Lauder was in Grayling jail awaiting trial in circuit court and on a pretense of wanting to collect trial in circuit court and on a pretense of wanting to collect some money from the Gaylord bank, Sheriff Bennett took him to Gaylord. While there Lauder escaped. Since then Sheriff Bennett has been on a determined search for the escaped man. Having heard that he was in Ohio or Kentucky, Bennett had officers there searching for him but he got no results. Bennett made several trips to those states in search and finally he, with assistance of Kentucky officers, located his man. ed his man.

Lauder was cutting wood in a mountain hang-out and when the latter discovered Bennett approaching he hurled an axe at him and started to run away but upon his refusal to stop Bennett fired, a shot striking him on one hand. Then he stopped and Ben-nett brot him back to Grayling, well handcuffed. On the return trip Lauder watched for every opportunity to escape but in vain. He is now in Crawford county jail and we will wager that he will not escape again. Mr. Bennett's efforts to recapture Lauder cost Sheriff Bennett a lot of money. He says, that he was responsible for Lauder's escape and that he considered it his duty to pay the costs personally. Frank to pay the costs personally. Frank says he will give us a story for publication next week telling just how he got his man.

C. L.S. Defeets Alpena Central

A little thunder was taken out of Alpeon Central's Thunder-outs last Friday nisht when craying High's green-olad ba-kethall warraors defeated them cirayling High's green-olad bassciball warriors defeated them
in a very close game by the slim
margin of one point. It was a nip
and tuck battle all the way and
ine final score stood: Grayling,
17; Alpena, 16. This is the third
straight victory over the Hastlecoached squad and the fourth
time Grayling has defeated them
in the seven times they have
met. Alpena plays a return engagement here January 34th and
hey have promised Coach
Cornell's charges a tough battle.
Both teams came out in the
first quarter with a will to win
attitude. Alpena started the scoring and netted six points before
Grayling's sharpshooters could
find the hoop. Despite this the
Northern Lights deadlocked the
score, pulled ahead, and led at
the end of the first quarter, \$-6.
This first quarter proved by the
spectators that one-game predictions were true and they settled
flown in their seats to witness as
thrilling and exciting a ball game
as has ever been blaved. thrilling and exciting a ball game is has ever been played. The second quarter was a repetition of the first with both

teams playing a brilliant game. Gravling added four points to bring their total to twelve, while Airena garmered (wo to raise

Alferna garmered two to ruse their score to eight.

The rest at the half had a creat effect on the Alpena team. They came back with a flasty attack that resulted in the scoring of four points. Graving was held scoreless in the third quarter.
